

## QUESTIONS TO ASK YOUR DOCTOR AFTER A BREAST CANCER DIAGNOSIS

1) What type of breast cancer do I have?	
What are my chances of recovery?	
Will I need a mastectomy or a lumpectomy?	
Will I need radiation even after a mastectomy?	
What will the side effects of all my treatments be?	
Will I need tests to look for cancer in other areas of my body?	
7 Should I consider a clinical trial?	
What lifestyle changes should I make to decrease the risk of breast cancer coming back?	
Be Prepared Plan to talk with your doctor to better understand your diagonake a list of all your additional questions ahead of time of	gnosis and treatment options, and to share your preferences and bring them to your appointment.
