Instructions: Please list the name and type of each ICU at your facility, and then enter all required information in the yellow highlighted boxes only. Once all information in the yellow boxes has been entered, the spreadsheet will calculate your quarterly nurse-to-patient ratio for you. This information will populate into the second worksheet that should be sent to DPH.

*Please note that a staff nurse is defined as "a Registered Nurse providing direct patient care in an ICU," and could include temporary agency nurses, travelers, on-call, etc. No other nursing staff should be included in this calculation.
