

# ReGreening the Community

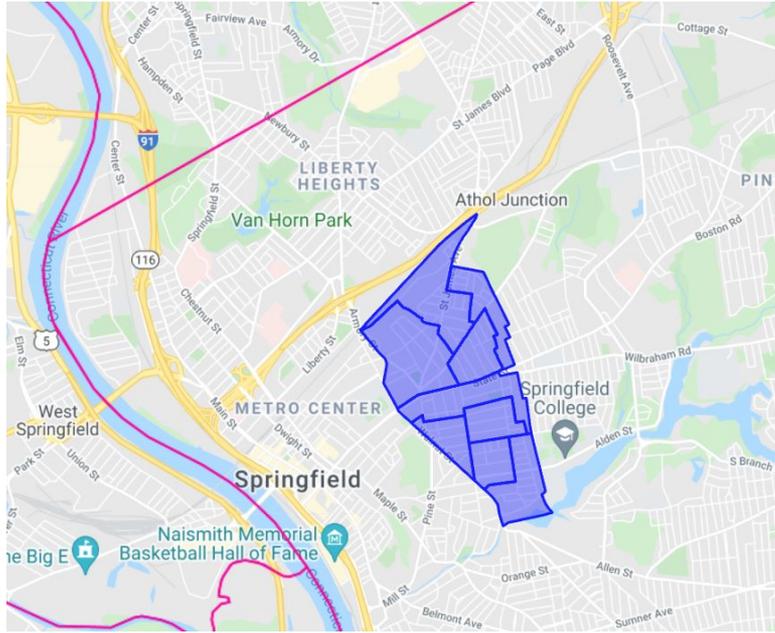

Nava Parvaneh, Gabi Walsh, Juliana Arenas

Baystate  
Health

ADVANCING CARE.  
ENHANCING LIVES.

# Population of Focus:

- Old Hill and McKnight neighborhoods in Mason Square, Springfield, MA
- Why we chose this area:
  - Regreen Springfield is working to promote reforestation in these neighborhoods
  - Wanted to examine equity in Mason Square through an environmental health lens
- Old Hill: 311 Acres
  - Tree/shrub cover: 20.75%, Impervious: 54%, Plantable Space: 29.78%
- McKnight: 410 Acres
  - Tree/shrub cover: 32.75%, Impervious: 48.5%, Plantable Space: 28.59%

# Key Demographics:

## Old Hill

**Population:** 4,278 individuals

**91% POC**

**Poverty:** 34.6%

## McKnight

**Population:** 4,636 individuals

**86% POC**

**Poverty:** 30.3%

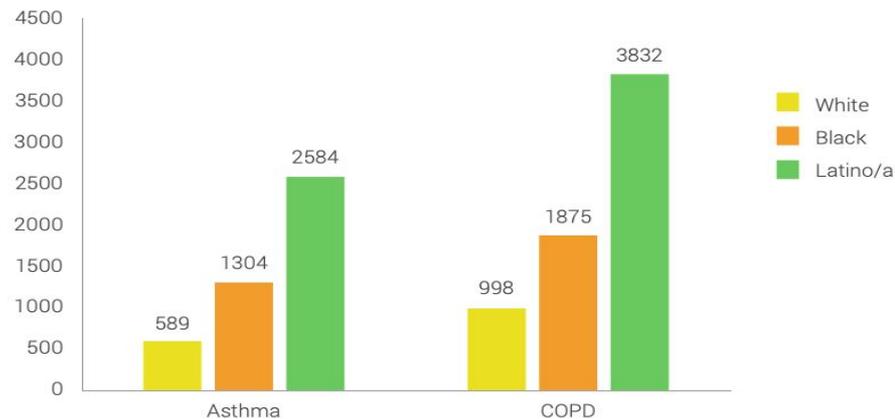

# Environmental Exposures and Inequities:

Selected Variables	Percentile in State	Percentile in EPA Region	Percentile in USA
<b>EJ Indexes</b>			
EJ Index for Particulate Matter (PM 2.5)	94	94	79
EJ Index for Ozone	94	94	84
EJ Index for NATA* Diesel PM	93	94	83
EJ Index for NATA* Air Toxics Cancer Risk	94	95	82
EJ Index for NATA* Respiratory Hazard Index	94	95	81
EJ Index for Traffic Proximity and Volume	90	93	90
EJ Index for Lead Paint Indicator	94	95	95
EJ Index for Superfund Proximity	87	88	79
EJ Index for RMP Proximity	96	97	93
EJ Index for Hazardous Waste Proximity	91	92	91
EJ Index for Wastewater Discharge Indicator	89	90	86

# Common Health Exposures

- In a 2021 Report, the AAFA ranked Springfield as the **#12 Asthma Capital**
- Latino people are 5x and African Americans are 2x more likely to end up hospitalized overnight due to asthma.
- Latino/a residents were 4x and black residents were 2x more at higher risk of COPD-related hospital visits.

**Figure 10. Springfield Asthma and COPD Emergency Room Visit Rates, 2012 – 2015**  
Source: MDPH, Acute Care Dataset; age-adjusted rates per 100,000

# Current Health Benefits of Trees

	<b>Old Hill</b> 20.75% Canopy	<b>McKnight</b> 32.75% Canopy	<b>Liberty Heights</b> 41.00% Canopy	<b>Sixteen Acres</b> 48.50% Canopy
Acute Respiratory Symptoms (Cases reduced per year)	1.19	2.32	15.10	68.84
Asthma Exacerbations (Cases reduced per year)	0.43	0.83	5.26	24.11

# Community Partnership

# Voices from the community

- Green spaces build community
- Trees clean the air and provide community members with mental and physical benefits
- Planting wildflowers supports native insects and birds for the community to enjoy
- Trees can fall down and damage houses, the leaves need to be gathered, it's hard to see past them

Liz Stevens maintains the wildflower garden in her home community of McKnight

# Old Hill Community Engagement - The Value of a Single Tree

**This tree will remove 10 pounds of pollutants from the air in the next 25 years - that's equal to 10 bags of flour!**

\* CALCULATED BY MYTREE - AN ANALYSIS TOOL DEVELOPED BY THE US FOREST SERVICE

[www.regreenspringfield.org](http://www.regreenspringfield.org)

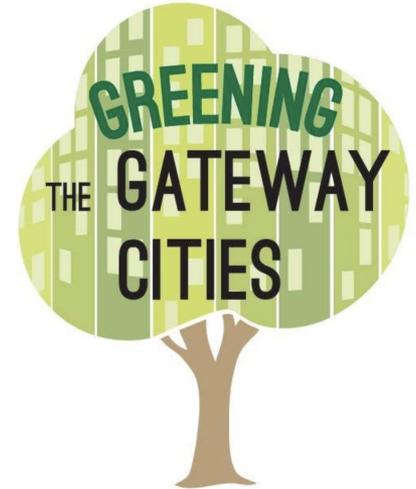

# Methods and Tools

The i-Tree logo features a stylized green tree with a brown trunk on the left. To its right is a grey silhouette of a city skyline against a blue sky. Below the tree and skyline, the text "i-Tree" is written in a serif font, with a small trademark symbol (TM) to the right.

# Rebecca M. Johnson Tree Proposal

22% Rebecca M Johnson student population

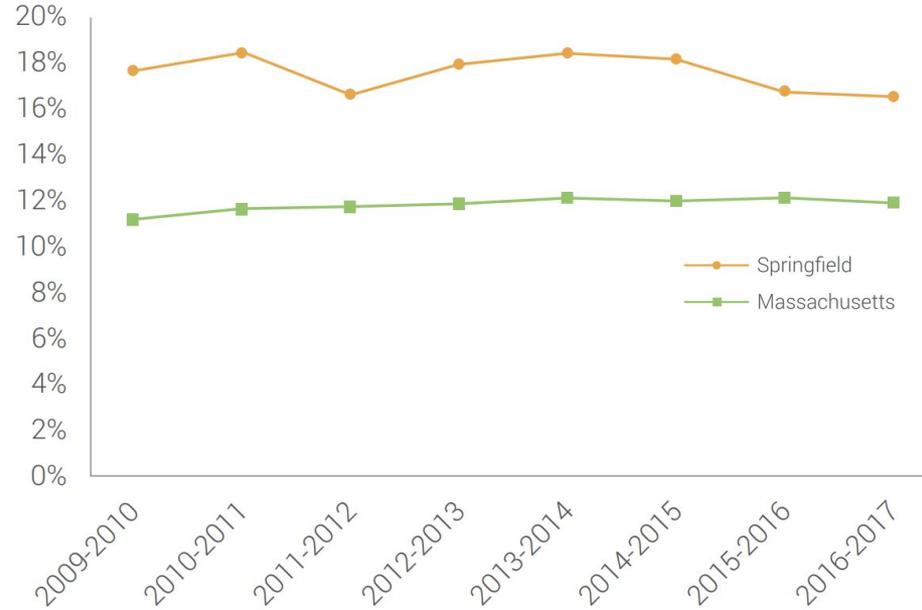

Figure 9. Pediatric Asthma Prevalence, 2016 – 2017

Source: MDPH, Environmental Public Health Tracking System

# Current Tree Benefits at Rebecca M. Johnson School

Over the next 25 years these 57 trees will:

Provide a total of

**\$28,136**

worth of overall benefits.

Remove an estimate of

**1,145 lbs.**

of pollutants.

- Reduce atmospheric carbon dioxide by 303,219 lbs.
- Help avoid 219,362 gallons of stormwater runoff.
- Conserve 50,178.9 Kilowatt-hours of electricity.

YOUR TREES YOUR STRUCTUR

# Trees Recommended by i-Tree Species

This is a list of the top 10% of tree species based on the following functions.

Generated: 10/29/2021  
 Location: Springfield, Massachusetts, United States of America  
 Hardiness: 6

- Constraints:
- o Minimum Height: 10 feet
  - o Maximum Height: None

- Air Pollutant Removal (0-10 Importance)
- o Overall: 10

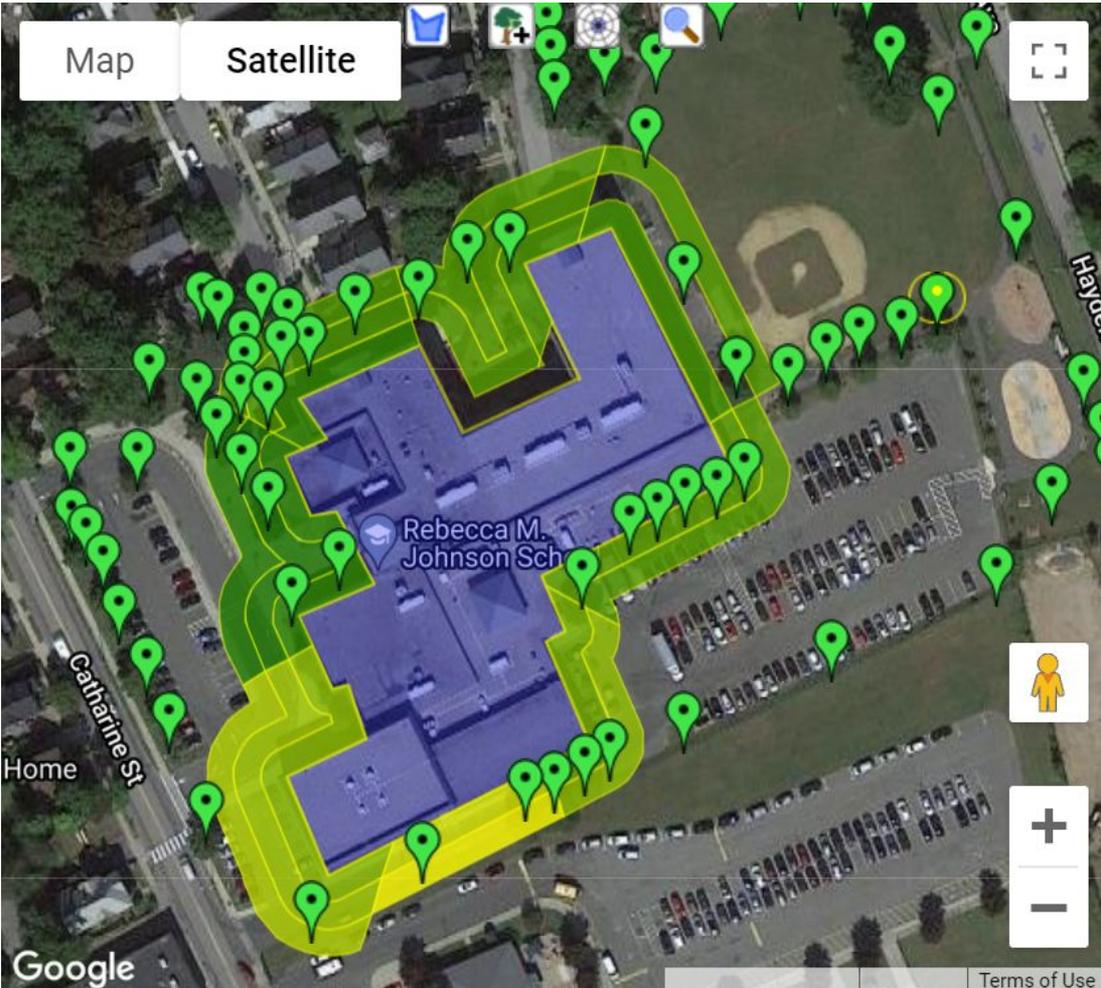

- Other Functions (0-10 Importance)
- o Low VOC: 10
  - o Carbon Storage: 8
  - o Wind Reduction: 4
  - o Air Temperature Reduction: 4
  - o UV Radiation Reduction: 10
  - o Building Energy Reduction: 6
  - o Streamflow Reduction: 2
  - o Low Allergenicity: 10

S = Sensitive I = Intermediate S/I = Indeterminate

Species		Sensitivity		Pest Risk			
Scientific Name	Common Name	Hardiness Zone	Invasive	Ozone (O3)	Nitrogen Dioxide (NO2)	Sulfur Dioxide (SO2)	Possible Pests
LIRIODENDRON TULIPIFERA	TULIP TREE	5 ~ 9		S			
TSUGA HETEROPHYLLA	WESTERN HEMLOCK	6 ~ 7			I		Southern Pine Beetle, Western Spruce Budworm, Annosus Root Disease, Douglas-fir Black Stain Root Disease
TSUGA MERTENSIANA	MOUNTAIN HEMLOCK	5 ~ 7					Fir Engraver, Southern Pine Beetle, Western Spruce Budworm, Douglas-fir Black Stain Root Disease
TSUGA CANADENSIS	EASTERN HEMLOCK	4 ~ 7		I			Hemlock Woolly Adelgid, Southern Pine Beetle
TSUGA X JEFFREYI	JEFFREY HEMLOCK	5 ~ 7**					Southern Pine Beetle
ULMUS AMERICANA	AMERICAN ELM	3 ~ 9			I/S		Asian Longhorned Beetle, Dutch Elm Disease, Winter Moth
TSUGA CAROLINIANA	CAROLINA HEMLOCK	4 ~ 7					Hemlock Woolly Adelgid, Southern Pine Beetle
ULMUS GLABRA	WYCH ELM	4 ~ 7					Asian Longhorned Beetle, Dutch Elm Disease

- Tree selection software
- Set health priorities
- Prioritized pollutant removal

## 2. Place Trees

Please break large projects into smaller projects of no more than 25 trees at a time.

### Describe your tree:

- Tree species: London planetree  
Common
- Tree diameter: 4 Inches  
or circumference: 12.6
- Tree condition: Excellent
- Tree exposure to sunlight: Full sun

- Design planning tool
- Estimate tree benefits

# Adding 20 Trees to Rebecca M. Johnson School

Over the next 25 years these 77 trees will:

Provide a total of

**\$39,729**

worth of overall benefits.

Remove an estimate of

**1,449 lbs.**

of pollutants.

- Reduce atmospheric carbon dioxide by 401,765 lbs.
- Help avoid 258,979 gallons of stormwater runoff.
- Conserve 78,528.7 Kilowatt-hours of electricity.

**41.2%** additional overall benefits

**26.5%** additional pollutants removed

# Summary

- Learned about the McKNight and Old Hill neighborhoods of Springfield
- Importance of green spaces on mental and physical well being
- Engaged with community members
- Learned about ongoing advocacy efforts in Springfield communities

Birthplace of basketball in Old Hill
